

Keeping Everyone Safe

A guide for parents.

Dear Parent and Carers,

We are adhering to government advice and guidance in regards to our health and hygiene practices here at our Nursery and Children's Centre.

What are we doing?

Social Distancing

Hand washing on entry to nursery

Increased cleaning of environment and equipment

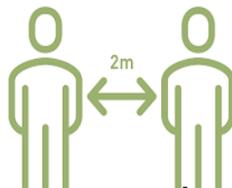

There is scientific proof that being outside lowers the risk of Coronavirus transmission. At Oliver Thomas we will be providing your child with a complete outdoor educational experience.

What can you do?

If your child is sick please keep them at home

Please respect social distancing

Remove and clean clothing worn outside the home

We understand that very young children cannot socially distance. While at nursery, we will play with and care for them if they are upset.

We will continue to follow our strict hygiene procedures, when changing your child and in the event of them receiving first aid.

If you have any question or concerns please speak to a member of The Leadership Team.
